

PCB connector

180-A-111

Screw connection

The PCB connector 180-A-111 features parallel entry for both conductor and screwdriver. It can also be used as printed circuit board termination with front panel penetration.

These PCB connectors are available in 5 mm pitch with up to 12 poles, but they can also be plugged together as longer terminal strips.

Each pole has a double solder termination with 5 mm pin spacing. The wire entrance is parallel to the PCB.
