

302-FB(-DS)

Plug-in terminal strip

Screw connection & socket with clamping spring

The plug-in connector strip 302-FB is available in 8 mm pitch with 2 to 12 poles. It is well suited for applications where space is limited. It has one screw connection per pole and one plug-in connection for a terminal strip with pins.

Plug-in terminal strips 302-SV or 302-SVG create a plug connection where both lead terminals are located parallel to the PCB. The contact pressure is applied by a stainless-steel spring.

The wire protector of the "DS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw. These terminal strips can be screw-mounted on a substrate.
