

302(-HDS)

Socket terminal strip
Screw connection

The socket terminal strip 302 is one of our smallest socket terminal strips. It is available in 8 mm pitch with 1- to 12-pole design and can be easily cut to the desired number of poles.

The flexible polyamide moulding can even be mounted on curved surfaces.

The wire protector of the "HDS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.
