

323-FU-16,5(-HDS)

Socket terminal strip

Screw connection, with 2,2 mm raised base

The socket terminal strip 323-FU-16,5 with raised foot is available in 10 mm pitch and with 1 to 12 poles.

The raised foot increases the creepage distance between terminal body and mounting surface.

The flexible polyamide moulding can even be mounted on curved surfaces.

The wire protector of the "HDS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.
