

## 323-FU-18,5(-HDS)

Socket terminal strip

Screw connection, with 4,2 mm raised base

The socket terminal strip 323-FU-18,5 with tall foot is available in 10 mm pitch and with 1 to 12 poles.

The raised foot increases the creepage distance between terminal body and mounting surface. This terminal can be used for applications with higher voltages without an additional insulating pad.

The flexible polyamide moulding can even be mounted on curved surfaces.

The wire protector of the "HDS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.
