

324(-HDS)

Socket terminal strip
Screw connection

The socket terminal strip 324 is available in 11,5 mm pitch with 1- to 12-pole design and can be easily stripped to the desired number of poles. One fixing hole is located between every two poles. The flexible polyamide moulding can even be mounted on curved surfaces.

The wire protector of the "HDS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.
