

Tab/screw connector block 42..-CZ(-DS)

Tabs 6,3, with peg

Tab/screw connector block 42..-CZ in 14 mm pitch with projecting peg is a combination of socket terminals and tab connectors. On the tab connector side, it features two 6,3 mm tabs and is available in 3- and 4-pole design. The individual poles are continuously numbered according to the number of poles.

In place of the mounting hole, a projecting peg at the base is located on the left side facing the tabs, enabling to mount the connector to the substrate with only one screw.

The wire protector of the "DS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.

Ordering note:

For the variable placeholder („...“) in the type designation, please enter the corresponding number of poles. Example: 423-CZ for a 3-pole variant.
