

42..-DL(-DS)

Tab/screw connector block
single-sided tab 6,3 mm

* = Outer hole for 2 and 6 poles: \varnothing 3,6 mm

Tab/screw connector block 42..-DL in 14 mm pitch is a combination of socket terminals and tab connectors. On the tab connector side, it features two 6,3 mm tabs and is available in 2- to 4- and 6-pole design. The individual poles are continuously numbered according to the number of poles. The wire protector of the "DS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.

Ordering note:

For the variable placeholder („..“) in the type designation, please enter the corresponding number of poles. Example: 423-DL for a 3-pole variant.
