

Tab/screw connector block 970-B-2,8(-DS)

screw connection, with tabs 2,8

Tab/screw connector block 970-B-2,8 in 5 mm pitch is a combination of tab connector block and screw connector. They are available in 2- to 8-pole design. They are mostly used for the mains connections of electrical equipment but are also suitable for other applications.

Due to the 5 mm pitch, the tab/screw connector block 970-B-2,8 has only small space requirements and is particularly suitable as lead-out terminal for plastic walls.

The housing features two lateral mounting flanges. Interior connections are designed as A 2,8 mm x 0,8 mm tab connectors. The wire protector of the "DS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.

Installation note:

Tab connectors are provided for connections inside electrical equipment. They offer easy and low-cost mounting solutions. Screw connections are available for mains connections.
