

## 983-ML-2,8

Screw/solder connector block with soldering tags

Screw/solder connector block 983-ML-2,8 in 10 mm pitch is available in 2- to 12-pole design and can be mounted side-by-side in nominal pitch. This connector is based on our series 983 terminal strip.

The lead connection is designed as head contact terminal with M4 screws. Screws and square washers are movably connected. The square washers are mounted in a non-twist arrangement. For an easier connection of the lead, the washer automatically moves up when the screw is loosened.

One solder tag (width 2,8 mm) per pole is located on the soldering side.
