

Securing pins BEF-3070-18/-21

Accessories

Securing pins BEF-3070 fasten cover cap 3070-B on tab/screw connector blocks of series 307-PCF und 3070-PCM.

Depending on the number of poles, one or two securing pins BEF-3070 are required. After the wiring, the pins are inserted through the mounting holes into tubular rivets of the package. By pulling out the pins with a tool, the cap can be removed.

For one-tier poles, securing pins BEF-3070-21 are available, for multi-tier poles securing pins BEF-3070-18 are provided.

Part Numbers

No. of poles	BEF-3070-18	BEF-3070-21	Length	PU
1	10.476.002	10.476.006	18,00 / 21,00	10 000

General Information

Usable with Tab/screw connector blocks 307-PCA/-PCF and 3070-PCM

Material

Moulding PA, natural, V-2
Temperature Range -40°C up to 100°C
