

PRODUCT CHANGE NOTIFICATION

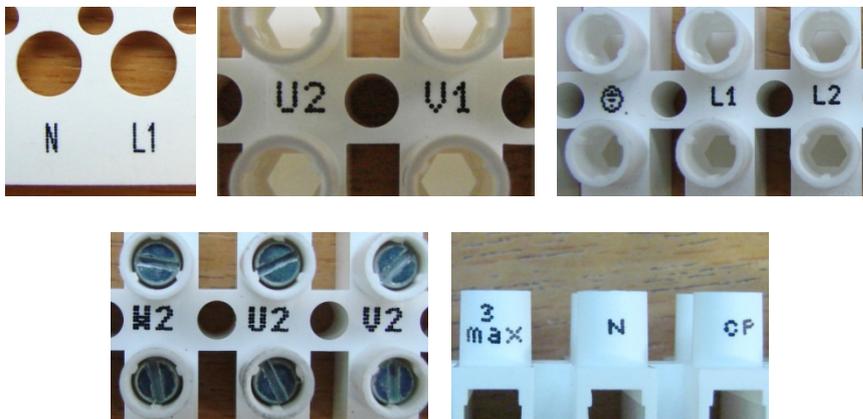

PCN-WD2014-02-1

To our customers

Dear Madam, dear Sir .

We would like to inform you by means of this letter that WECO Contact GmbH will change the printing method of the products gradually to the ink jet method beginning on 1st March 2014. In a first step, the 323 series and the marking strips BST will be provided with the new marking.

The following examples will give you a short impression of the marking of the new printing process.

The advantage of this method lies in the favorable set-up times when changing the print image and the lower consumption of inks and cleaners. This circumstance allows us to keep costs/prices of our marked products currently on a stable level.

Not at least, we take environmental concerns into account through the reduced consumption of system fluids.

The part numbers of the products are not affected by the change and will remain unchanged. Thus, there is no administrative overhead for you. Upon express request, we will continue to provide the marking with the presently practiced pad printing process. However, the considerably more complex handling in such cases requires a corresponding price adjustment and the allocation of new part numbers.

Existing stocks with the marking by the previous pad printing process will still be delivered.

Sales:

WECO Sales
Phone: +49 6181 / 105-142
Fax: +49 6181 / 105-720
vertrieb@wecogroup.de

Date:

Hanau, February 3, 2014

Please inform us in advance in writing if you do not want to change and still want a print of the products you use with the pad printing process. If we do not receive appropriate feedback, the changeover to the new printing process will be done automatically.

DATE OF MODIFICATION

The automatic changeover to the new printing technique starts

March 1, 2014

CONTACTS

In case of queries, please contact the address listed on the top right.

If you have any questions concerning orders, prices, delivery times and stock levels, please send them directly to our sales department.

With best regards

Your WECO Team
