

CONNECTION WITHOUT LIMITS

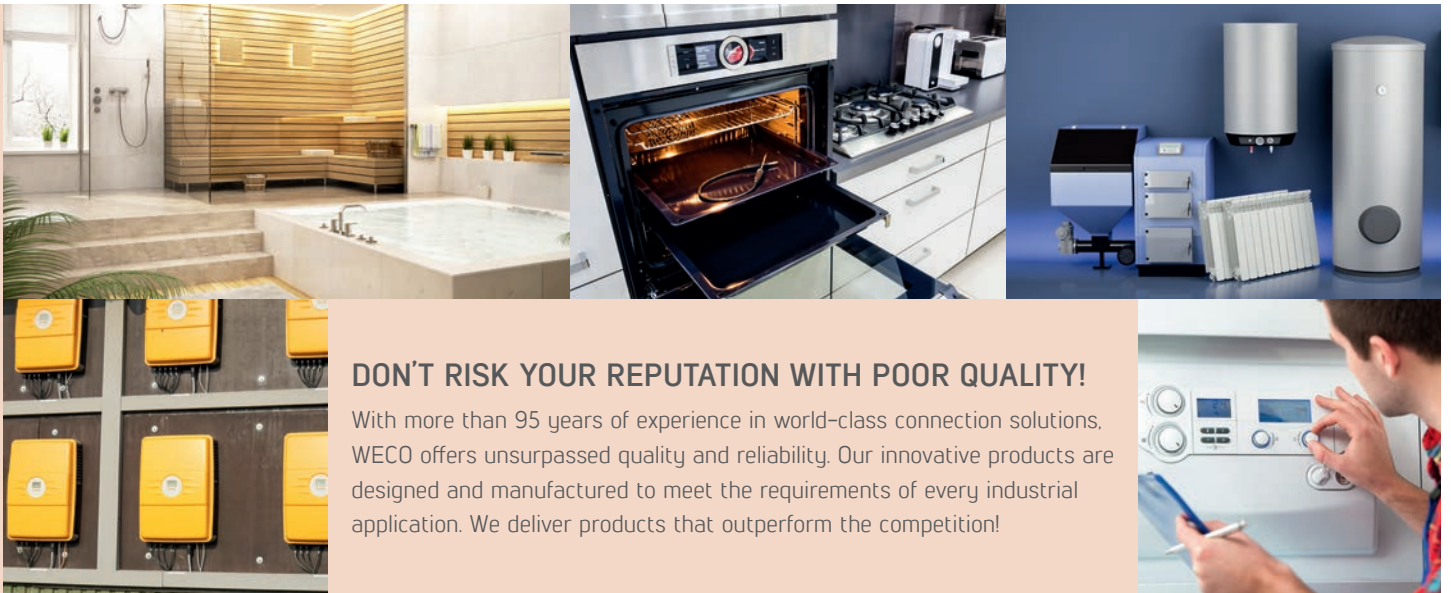

Tab strips series 307/3070

Our tab strips series 307 and 3070 are the ideal solution for the most diverse applications.

For high current and high voltage applications, these robust tab strips are the perfect product. With carefully selected materials for tabs and housing, WECO series 307 and 3070 offer top-of-the-line quality and outstanding lifetime.

Various tab types in straight and angular design, optionally also available with screw connection, offer a multitude of combinations, highest flexibility and virtually unlimited application options. Special customized variants complement the series thus offering a unique product range unsurpassed on the market.

DON'T RISK YOUR REPUTATION WITH POOR QUALITY!

With more than 95 years of experience in world-class connection solutions, WECO offers unsurpassed quality and reliability. Our innovative products are designed and manufactured to meet the requirements of every industrial application. We deliver products that outperform the competition!

VERSATILE DESIGN

- up to 21-pole configurations
- 3 different tab widths 3 (4.8 mm, 6.3 mm and 2 x2.8/1x6.3 mm)
- multiple tab designs with screw connections
- large variety of tab arrangements and combinations
- quick and reliable access to the contacts
- individual pole assignment depending on customer request
- various housing materials, including materials meeting glow-wire testing and household appliance standards

DELIVERY CHAIN

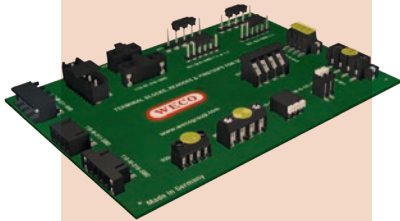

- fast delivery of small quantities via distributor and dealer warehouses

MAINTENANCE

- minimum maintenance due to top-quality materials

You are in the process of designing a new application?

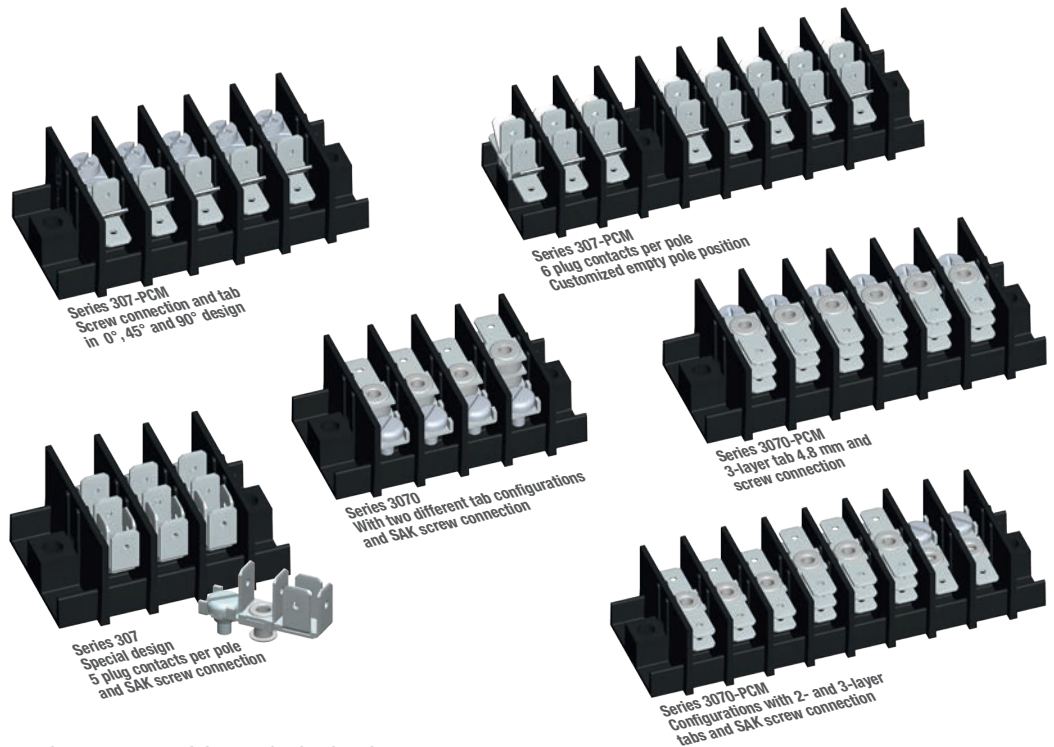

Our tab connectors are ideally suited for tab receptacles according to DIN 46247. By means of metal rivets they are connected in packages of maximum 6 connections per pole thus ensuring minimal contact resistance.

Thanks to comprehensive and variable pole assignment options, our tab connectors offer high packing density and optimal space utilization!

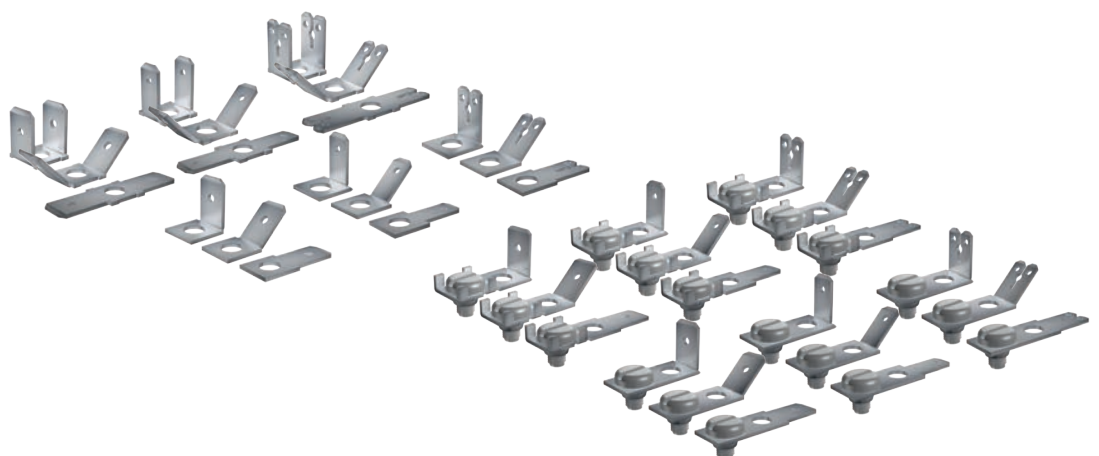

The empty poles ensure reliable attachment of the strips to the base carrier and can be freely selected. Tab connectors of series 307 and 3070 are the perfect connection solution for high currents.

You tab receptacles and our connectors – a connection beyond comparison!
