

International Approvals

Status: June 2009

Description

The terminals in this catalogue have been designed and manufactured in compliance with important European and North American standards.

Since the test standards vary from country to country, the test data of a terminal can vary depending on the testing agency.

For connectors, the lower of the respective values of the individual terminal blocks

are to be taken into account.

The test data of ATEX certified terminals (Product Group E) are not listed. The respective data can be found on the corresponding product pages.
